

## SEIZE DYNAMITE BROUGHT BY BOY FOR KLAN EVENT

Wesley Holyoke Arrested for Transporting Explosive—Confesses, Said.

As a most serious sequel to one phase of the demonstration of the Ku Klux Klan on Christmas night, Wesley Holyoke, age 21, is under arrest on a charge of transporting dynamite in violation of the laws of the state. The penalty, on conviction, is a penitentiary sentence of from two to 14 years.

Young Holyoke was arrested at the Studebaker plant on Tuesday by Chief Lane on information that he had in his possession a large amount of the explosive, in his rooms on E. Sample st.

A search revealed nine pounds of the high explosive, enough to cause a most serious devastation.

Brought From Culver.

When taken to the police station, Holyoke is said by the police to have admitted that he brought the dynamite from Culver by train, involving him in a federal charge of an equally serious nature if this should be proved.

He said that he had brought the dynamite as a result of plans made by a committee of the Klan to call attention to burning crosses upon the hills of Mishawaka. He had volunteered to bring this in as a means of calling attention to the signal fire.

He was not asked for names of those at the committee meeting which advised and counseled him in violation of the law.

A small part of the dynamite was used and the remainder of the nine pounds was taken by Holyoke to his rooms where it was seized by Chief Lane and is now placed beyond the possibility of creating damage.

Grave Offense.

No effort was made by Chief Lane to go farther than the prosecution for a clear violation of the law. He stated that he had no interest in any law activities of any organization nor any intention of interfering with any activities of any organization until it went beyond the provisions of the law. The transportation of dynamite has always been regarded as a most serious crime and too grave to be condoned on the ground of thoughtless enthusiasm.

The chief made it most clear that his interest in the Klan is confined exclusively to law violations and that membership in it is neither a cause nor excuse for unusual persecution. The matter stands on the same level as any other case in the courts.

Young Holyoke was employed in the machine shops at the Studebaker plant and is said to have been regarded as an efficient worker. He came here from Flint about a year ago.

Atty. Thomas Slick has been employed by Holyoke to defend him and will endeavor to arrange bonds upon the hearing of the case. The formal charge was lodged Wednesday afternoon.

## TRADING IN STOCKS CLOSES IRREGULAR

Speculators Not Altogether Successful in Forcing Price Advances.

Day's total sales, 1,056,300 shares.

Twenty industrials averaged 99.22; net gain 1.04; high 102.13; low 78.59.

Twenty railroads averaged 85.58; net loss .41; high 102.22; low 72.43.

**NEW YORK**, Dec. 27.—(By A. P.)—Speculators for the advance endeavored to continue marking up stocks in today's market but they ran into heavy profit taking and short selling with the result that the list presented a decidedly irregular appearance at the close.

Baldwin Locomotive was taken in hand early in the session and pushed up 4 1/2 points to 120 1/2, the highest price of the year and American Locomotive advanced three points in sympathy, but few of the other standard industrials were able to make much headway.

While stock sales crossed the million mark, the chief feature of the day's trading was the heavy profit taking and short selling with the result that the list presented a decidedly irregular appearance at the close.

There was a continued lack of speculative interest in railroad shares with decided reactions in the stocks of roads showing poor November earnings.

Marked heaviness was noted in General Electric, General Asphalt, preferred, Lorillard Tobacco and Chicago Pneumatic Tool, off three to four points, and Mexican Petroleum, off nine. Marine preferred dropped below 3 for another new low record, but rallied to 4 3/4 at the close.

Call money was firm, opening at five per cent and advancing to 5 1/2 before the close. Time money and commercial paper markets were dull.

## WHEAT ASCENDS TO NEW HIGH RECORD

**CHICAGO**, Dec. 27.—(By A. P.)—With a liberal export demand in evidence and a continued prevalent anxiety as to the abnormal low condition of the domestic winter crop, wheat advanced today to a new high price record for the season—\$1.26 3/4 for the May delivery. The market closed firm.
